THE GAY SIDE OF LIFE.

NOT SHE.

I sent two notes to posted be, And each was to a different "She," But when in turn came their replies, In wrathful mood I wiped my eyes. The one from my sweet love was cold, And merely said: "If I am old, Compared to her I hear your name So often coupled with what shame Is that to me? You're older still, Yet once I'd almost said ' I will.' Goodby, sir." Sick at heart, I tore The other open. Then I swore By all the powers I would not be Bound for those words to such as she. You see, a maid I hated quite Had sent a note, and begged some nigh That I would just run o'er a play She'd written. I, who knew her way, Had, in the curtest words I knew, Said that "the subject wouldn't do-Twas quite too old;" and so declined The leisure for the task to find. And to this girl-designing thing!-I'd sout my letter, offering My hand and heart. Ah, wee is me! The she I most don't want is she.

There has been a notable lack of weddings during the past week, but several very brilliant receptions were given, among them that of Miss Jane Watson, of Washington street, Allegheny, on Thursday in honor of her eister-in-law, Mrs. D. GRAND OPERA HOUSE,, BLIOU THEATER Clover' HARRIS' THRATER..... ACADEMY OF MUSIC.... Lily Clay Galety WORLD'S MUSRUM.....

The above are the theatrical attractions for this week.

The week at the theaters has been uneventful. There was a good deal on the bills that was "stale, flat and unprofitable." The outlook is better for the coming week.

There has been a good bit of gossip about Lillian Russell in the Pittsburg papers during the week. Those interested in the subject will probably find the following, from the Black Cat, worthy of attention:

I hear the gruesome rumor that our great, our only, our rosy, our large Lillian Russell, is to tumble beels over head for the third time into the sea of matrimony. While Harry Braham sits on the grave-stone above his dead memories, and fiddles a burial hymn, and while the talented Solomon composes sad measures to commemorate the vanished joys of years to commemorate the vanished joys of years that have fied, a young and wealthy man named Sanford, who has long adored, with the rest of us, the unusual attractions of the radiant songstress, steps in and places the glittering circlet of divine promise upon her dictatorial finger. Well, on the principle that the third time never fails, we are entitled to hope that Lillian is now about to advance into that haven of supreme peace and happiness that decorates the world with smiles, and gilds life with the splendor of virtuous domesticity. Such a result ought surely to be accomplished on the third grab.

According to the Mirror William H. Crane's benevolence has caused him no end of trouble. He wrote some time ago a syndicate article in benevolence has caused him no end of trouble. He wrote some time ago a syndicate article in which he expressed the opinion that American dramatists had not been properly encouraged. He also intimated that he would do his ulmost to foster the native product in future. According to an article in a cotemporary, as soon as the comedian's views became public property through the medium of the press, the trouble began. Manuscripts arrived from all points of the compass—they came by mail, by express, by district messenger boy, by the hallboys of the hotel; they included tragedies, melodramas, emotional plays, comic operats, pantomimes, burlesques, vaudevilles, historical and romantic dramas, plays of high lite, low life, and of no life at all.

melodramas, emotional plays, comic operas, pantomimes, buriesques, vandevilles, historical and romantic dramas, plays of high life, low life, and of no life at all.

This per-secution of Mr. Crane on account of his optimistic views, is said to have been kept up throughout the entire season. When he at last was able to retire to his summer home at Cohasset, he fully expected a cessation of hostillities. His sorrow, however, failed to surcease, and the plays began to arrive, accompanied by their respective authors. "The harrassed actor," says our authority, "fled to Boston for relief, and lot the streets seemed peopled with dramatists. And so it is still going on—plays of every conceivable degree of badness pouring in on Crane, and though he conscientiously wades through at least an act of each of them, he has not yet been rewarded by one gitimmer of the latent talent which, in his opinion, it is the actor's or manager's duty to develop or encourage."

**asysthe libretto is clever enough to be staged with dramatic Miss Historical without music. She is one of the greatest successes of the English stage, and daily a score of mash letters, which he eart in the bosom of the youth-full briton that is pitiable.

Loie Fuller, who has been playing "Caprice," at the Globe Theater, is seriously ill. As a result, the theater has beene code, though Miss Fuller promises to open it again as soon as she is able to stand the physical strain. Since her advent here she has worked very hard, being her own manager. She is making an effort to obtain a new play, as "Caprice, has been a failure, though Fuller herself has been highly praised by the London critics.

Miss Huller mother opens, reveals a condition of the heart in the bosom of the youth-full britant is pitiable.

Since her advent here she has worked very hard, being her how manager. She is making an effort to obtain a new play, as "Caprice, has been a failure

If this be true, we should consider that Bishop Hatto had a safe retreat in his mice tower at Bingen, compared to the universal knowledge of Mr. Crane's whereabouts. The bishop was gnawed to death by the mice, to be sure, but who can predict the lingering agony that is still in store for the well-meaning comedian, if this epidemic of manuscripts con-tinue to make his life burdensome. Desist, ye dramatists, desist! Mr. Crane is far too good an actor to be worried to death in this heartless and unnecessary manner.

The Programme.

"KAJANKA," the new spectacle which was resented for two weeks at the Columbia Theater, Chicago, and at other first-class theaters to crowded houses, will be seen for the first time here at the Grand Opera House tomorrow night and continue throughout the week. The piece is in three acts and five scenes, all of which are transformation scenes of an elaborate character, the first act opening with Beelzebub's cave and the descent of the Imp, followed by the appearance of the Fairy en from a golden star. The second scene i in the idol room of the temple. In act second is introduced the triumphal march of Kajanka and the Nautoh dances. This is quickly transformed to a terrace, with prismatic fountains. Here the London Gaiety dancers, four in nur Here the London Gaiety dancers, four in number, appear in a characteristic dance called the "The Papillon," and also in a medley of the latest English popular songs. Then follows a grand march by a corps of young and pretty girls, after which Miss Edith Craske, 16 years of age, is seen in a novel transformation dance something on the order of Miss Ida Heath. The follows the famous Denazettis, the leading acrobate of Paris, in their marvelous acrobatic act. It is said that this gymnastic performance is the greatest ever this gymnastic performance is the greatest ever witnessed in this country. It has never falled to receive from six to eight encores nightly. The last act of the piece is chiefly pantomimic, with many novel magical tricks. The piece closes with a realistic earthquake which changes into a magnificent tableau entitled the 'Rise of the Morning Sua.' One hundred people are employed in the representation, among whom are the Allen sisters, George D. Melville and Tillian Rage. The ballet in 'Kajanka' is composed exclusively of handsome young ladies, not one being over 21 years of age. This will certainly be a novelty in this line. "The clown, George D. Melville," says a New York paper, 'has no equal in this or any other country, and in his juggling act, which is done by the aid of kitchen utensils, always arouses the audience to the greatest enthis gymnastic performance is the greatest eve which is done by the aid of altenen utensils, al-ways arouses the audience to the greatest en-thusiasm. Another feature is the pretty women of the company. It is not every day that one will see such beauties as Anna and Ricca Al-len, Rose and Alice Batchelder, Edith Macklin and Nellie Sennett in one company. The cos-tumes are rich and elegant, and the Miller Brothers have spared no expense to make this Brothers have spared no expense to make this one of the greatest spectacular productions of the present day." The scenery is described as a marrel of splendor, and the transformations simply wonderful.

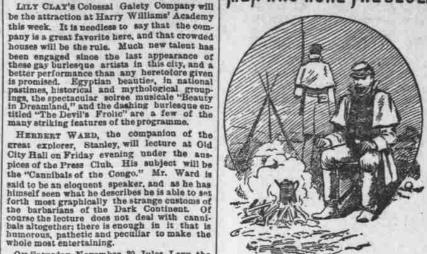

"Clover," the newest opera of Von Suppe, the eminent composer of "Boccaceio," "Bell-man," "Fatinitza" and other successful operacomique, will be given a fresh production in this city, at the Bijon Theater, on Monday evening. "Clover" enjoyed a successful run of six months in New York, and will be preor six months in New York, and will be presented here by the entire original cast, and with all the seenic and other effects used during the stay in the metropolis. All of Colonel McCaull's best people are in the company, and the production promises to be something unique in the history of comic opera here. Society will undoubtedly turn out in great numbers to welcome the favorities of the McCaull organization, and their season here, although brief, promises to be a most prosperous one. "Clover" is from Von Suppe's "Die Jagd nach dem Gluck," and was adapted particularly for the well-known members of the McCaull Operatic organization. The plot has a touch of gennius romance, and the music is said to contain some of the finest numbers that ever emanusted from the prolific fancy of its composer. The east includes Charles W. Dungan, Marion Manola, Eugene Oudio, DoWolf Hopper, Annie Myera, Lindsey Morrison, Jefferson de Angelis and other well-known people. The scenes are laid in Bavaria, Paris, Sweden and Venice. Country folk, ballet girls, cavaliers, soldiers, fisher girls, masqueraders and gondoliers are all represented, making, with the bright music and the fine scenery, a very picturesque and pleasing general effect.

It is full of exciting scenes, where the audience can yell themselves hoarse, and then again it has a great deal of fun in it, which can be appreciated by all. Grace Hawthorne, the American actress, who has a suit pending for £10,000 damages against A. M. Palmer for breach of contract in the matter of non-production of "Theodora," opens her season in this play at the Brighton, Monday. Miss Hawthorne has just returned from Faria, where she has been studying the role under the personal direction of Sardon, the author. The English adaptation is by Robert Buchanan. Miss Hawthorne has obtained the costumes, armor and jewels manufactured for Palmer before the negotiations between them were broken off; they are by Duquesal, of Paris, and are said to be the most magnificent ever worn in a stage production. Miss Hawthorne's theater, the Princess, opens in a week or two with a new play by Brandon Thomas, "The Gold Craze."

THE ward school teachers are quietly at work arranging to take the proper steps to ask the Central Board for an increase of salary. The Committee on Teachers and Salaries will not meet till December, when the appropriation to be asked for will be considered. A Timely Suggestion.

The senior proprietor of this paper has been subject to frequent colds for some years, which were sure to lay him up if not doctored at once. He finds that Chamberlain's Cough Remedy is reliable. It opens the secretions, relieves the lungs, and restores the system to a healthy condition. If freely used, as soon as the cold has been contracted, and before it has become settled in the system, it greatly lessens the attack, and often cures in a single day what would otherwise have been a severe cold.—Northwestern Hotel Reporter, Des Moines, Ia. ITHE Eighteenth Regiment Drum Corps will turn out in full force on Thanksgiving Day with the Union Veteran Legion of this city. CAPTAIN SCHMIDT, of the Fourteenth Regi-

This season of rife practice closed yesterday.

Both the local regiments and Battery B have good reports to send in of the work accomplished during the year.

THE drum corp of the Fourteenth Regiment is to receive a thorough overhauling shortly, and, if possible, brought up to a first-class standard. A new instructor is to be engaged

for that purpose.

ADJUTANT GENERAL HASTINGS would do well to embrace in his next annual report a recommendation that newly elected officers be provided with an allowance to aid them in pro-cering their uniforms, arms and equipments. The State of New York treats the subject in the proper light by granting \$50 to insumed officers, and to all others \$30.

THE probable successor to Major General Hartranft is still the topic of discussion all over the State. The suggestion made in this column some weeks ago that Governor Beaver proposes to hold the vacancy for himself seems to be gradually dawning upon the minds of a large number of the prominent officials connected with the Guard, as about the true state of affairs. THE committee appointed by Colonel Perch-

ment to audit the accounts of ex-Quartermas-ter Patterson, of the Fourteenth Regiment, will make their report this week. Who the Quartermister of the regiment will be is not known, but it will probably be one of the present members of the organization, with the chances in favor of Sergeant Beam, who has been a member of the non-commissioned staff for a number of years.

disband the company.

A REFORT has been going the rounds lately that Quartermaster Sergeant Beam, of the Fourteenth Regiment, has been offered a sim-Regiment. Colonel Smith, when spoken to on the subject, stated in most emphatic terms that he usually made the appointments on his stan himself, and when he desired to make any non-commissioned appointments he could find plenty of good material in his own organization for that purpose. How such a ridiculous rumor could have started is not known.

CAPTAIN PENNY, of Company G. Eight Regiment, issued an order during the past week placing five of his men under arrest for disabedience of orders in not reporting for drills and parading with the company. It is drills and parading with the company. It is probable that another attempt will be made at court-martial, with what success remains to be seen, as several attempts during the past year have been completely ignored by the proper authorities. Courts-martial are practically dead letters in this State, but the sooner they are revived the better it will be for the Guard in general. Orders coming from company commanders should have some weight, but under the present system of management, they can be disregarded at will.

NOTE—Besides his successful operation for the removal of superfluone but on the semials face, Dr. Van Dyck has achieved a remarkable success in the permanent removal of ingrowing eyelashes (commonly called wild hairs). This is an exceedingly painful affliction. The constant extraction of these wild hairs causes them to become like sharp, wiry bristles, which upon every movement of the lide, scratches and irritates the eye causing thronic inflammation and weakness of that organ, which often terminates in total loss of sight. By a delicate and skillful operation, Dr. Van Dyck destroys the hair follieles from which the bair grows affording the patient permanent relief from in tense suffering.

The doctor is also frequently consulted by gentilemen for a growth of fair on the checks above the beard line, which imparts a harsh expression to the face. He treated a naval officer from Washington, D. C., a few years ago who had a growth of fine black hair on the checks above the beard line, forming a circle of about an inch below his eyes, looking as if his eyes were discolored.

Moles, birthmarks, warty extracement on the eyelics, neck and hands, red nose, enlarged velus of checks and nose, elevated and discolored cars, keloid growths, enlarged giands, cancers and tumors destroyed by Electro Surgery by Dr. Van Dyck.

Ladies, if nature has unkindly provided you with this obnoxious growth of factal hair, don't neglect your case another day, but stoy the nes of depilatories, selssors, tweezers or ranors, and consult Dr. Van Dyck at once and he forever freed from the lifetime blemish.
